hey there. this is jin hwan park the lead artist for breaker series.

the reason i'm leaving this note here is to inform our readers of what was going on behind the scenes.

we understand that a number of our faithful readers have questioned why despite our 4 week holiday the amount of pages we release per chapter has decreased.

To explain this in a few words,

during the past few weeks we've had two of our art staff who was working with us suddenly quit on us at the same time. some of you might have already heard but, breaker is a difficult project that relies on skilled staff work for us to release it every week.

but losing important staff so suddenly would naturally mean that our workload would drastically increase and it becomes ever more difficult for us to release the chapters on time.

that situation has been going on for the past 3 weeks, and this was the prime reason why we were forced to reduce our chapters for the time being.

the biggest problem we're facing right now, is that this situation will carry on for uncertain amount of time. thus we would like to ask our faithful readers to understand our current difficult situation. we know that many of you won't be pleased with this, but we'll try to amend this situation as soon as we can, and start releasing our lengthy chapters once again.

we apologize to everyone for our shortcomings, and thank you for staying as our faithful readers.

Thanks again.
